Dear Mr. Chason:

The Public Service Commission (“Commission”) has reviewed the Application for a Certificate of Public Convenience and Necessity to Construct a 10.0 MW Solar Photovoltaic Generating Facility in Queen Anne’s County, Maryland filed on February 2, 2015 by OneEnergy Wye Mills Solar, LLC (“OneEnergy” or “Company”). OneEnergy is proposing to construct a 10.0 MW alternating current solar photovoltaic facility on a 95 acre privately-owned site pursuant to a long term lease from a private landowner. According to the Company’s Application, the site is part of a larger, 210.6 acre, leased area located on Owens Road near the intersection of MD Route 404. The Application also states that because of the nature of solar installations, environmental impacts from this project will be minimal.

After review of the Application, the Commission hereby docket the matter as Case No. 9375, sets the matter for hearing, and delegates the matter to the Public Utility Law Judge Division to conduct the proceedings.

By Direction of the Commission,  
*/s/ David J. Collins*  
David J. Collins
