Dear Mr. Beugelmans:

The Public Service Commission (“Commission”) has reviewed the Application for a Certificate of Public Convenience and Necessity to Construct a 20.0 MW Solar Photovoltaic Generating Facility in Dorchester County, Maryland filed on December 21, 2015 by Todd Solar LLC (“Todd Solar” or “Applicant”). Todd Solar is proposing to construct a 20.0 MW alternating current solar photovoltaic facility on a portion of a 143-acre parcel near the Town of Hurlock in Dorchester County, Maryland. The Application indicates that because of the nature of solar installations, environmental impacts from this project will be minimal and the long-term benefits significant.

After review of the Application, the Commission hereby docket the matter as Case No. 9412, sets the matter for hearing, and delegates the matter to the Public Utility Law Judge Division to conduct the proceedings.

By Direction of the Commission,

/s/ David J. Collins
