

Order No. 82228⁴ in Case Nos. 9056 and 9064. At the hearing, Frank Mossburg of Bates White, LLC (“Bid Monitor”) testified on the conduct and results of the SOS solicitations for each IOU and David Hoppock of Commission Staff (“Staff”) testified on the estimates of bill impacts given the results of the January 13, 2020 SOS bidding.

2. The Bid Monitor testified that the January 13, 2020 bid solicitation was for full requirements service for seven different products among the four IOUs and that in response to the solicitation for the entire Request for Proposals (“RFP”), approximately 4.2 megawatts (“MW”) were bid for every MW needed overall. The Bid Monitor recommended that the Commission accept the results of the January 13, 2020 bid day. The recommendation was based on the following points: (1) the winning prices were consistent with broader market conditions, and the bid monitor did not reject any winning bids due to the Price Anomaly Threshold; (2) the RFP was sufficiently competitive, with eight bidders participating in at least one offering, seven bidders winning a share of supply, and the entire supply of each product fully subscribed; (3) the RFP was open, fair, and transparent, with each bidder signing the same contract and each bid judged solely according to price; and (4) the process adhered to procedures laid out in the RFP and Commission Orders.⁵

⁵ Staff Exhibit 1, Direct Testimony of Frank Mossburg of Bates White, LLC on behalf of the Staff of the Public Service Commission of Maryland, dated January 16, 2020, at 2-3 and 4-7.

3. No party offered any testimony rebutting the Bid Monitor's testimony or commented on the Bid Monitor's recommendation. Accordingly, the Commission accepts the results of the January 13, 2020 bid day, and takes no action on the award of the contracts for the bids found to be acceptable.
