Issue Date: June 10, 2022

1. On June 9, 2022, in Case Nos. 9056 and 9064, a hearing was held concerning the conduct and results of the June 6, 2022 Standard Offer Service (“SOS”) solicitations for a portion of the residential customer loads by The Potomac Edison Company (“PE”) and Type II commercial customers full requirement services by each of the State’s investor-owned electric utilities (individually, “IOU”; and collectively, “IOUs”)¹ pursuant to Order No. 81019 in Case No. 9056,² Order No. 81102 in Case No. 9064,³ and Order No.

¹ These IOUs are Baltimore Gas and Electric Company, Delmarva Power & Light Company, Potomac Electric Power Company, and The Potomac Edison Company.

² Order No. 81019 dated August 28, 2006, *In the Matter of the Commission's Investigation into Default Service for Type II Standard Offer Service Customers*, Case No. 9056. The Commission denied an application for rehearing by Order No. 81093, dated November 2, 2006.

³ Order No. 81102 dated November 8, 2006, *In the Matter of the Competitive Selection of Electricity Supplier/Standard Offer or Default Service for Investor-Owned Utility Small Commercial Customers; and for The Potomac Edison Company d/b/a Allegheny Power's, Delmarva Power and Light Company's and Potomac Electric Power Company's Residential Customers*, Case No. 9064.

82228⁴ in Case Nos. 9056 and 9064. At the hearing, Frank Mossburg of Bates White, LLC (“Bid Monitor”) testified on the conduct and results of the SOS solicitations for each IOU and Drew McAuliffe of Commission Staff (“Staff”) testified on the estimates of bill impacts given the results of the June 6, 2022 SOS bidding.

2. The Bid Monitor testified that the June 6, 2022 bid solicitation was for full requirements service for 5 different products among the four IOUs and that in response to the solicitation for the entire Request for Proposals (“RFP”), approximately 2.8 megawatts (“MW”) were bid for every MW needed overall. The Bid Monitor recommended that the Commission accept the results of the June 6, 2022 bid day. The recommendation was based on the following points: (1) the winning prices were consistent with broader market conditions, and the bid monitor did not reject any winning bids due to the Price Anomaly Threshold; (2) the RFP was sufficiently competitive, with six bidders participating in at least one offering, four bidders winning a share of supply, and the entire supply of each product fully subscribed; (3) the RFP was open, fair, and transparent, as all bidders, including utility affiliates, signed the same contract and all bids were judged solely on the basis of price; and (4) the process adhered to procedures laid out in the RFP and Commission Orders.⁵

3. No party offered any testimony rebutting the Bid Monitor’s testimony or commented on the Bid Monitor’s recommendation. Accordingly, the Commission
