Notice of Virtual Legislative-Style Time-of-Use Hearing

On October 4, 2021 Baltimore Gas and Electric Company (“BGE”), Potomac Electric Power Company (“Pepco”) and Delmarva Power & Light Company (“Delmarva Power”) (collectively “the Joint Utilities”) submitted the PC44 Time-of-Use (“TOU”) Pilot Final Pilot Evaluation. The filing included 1) the Brattle Group’s evaluation of the two-year pilot period; 2) assessments by each utility; 3) evaluation metrics for each utility; 4) an overview of Oracle’s Behavioral Load Shaping (“BLS”) communications tool; and 5) results of pilot participant surveys. The Joint Utilities also made several recommendations regarding ways to modify the pilot offering in advance of proposing this TOU as a full rate offering.

The Commission hereby requests that Workgroup Recommendations regarding the future of the TOU rate offering be filed on January 6, 2022. The Report should address the Joint Utilities’ areas of concern as well as any concerns raised by other stakeholders. Where possible, the Report should provide consensus recommendations and highlight any areas of disagreement for Commission resolution. The Commission also hereby requests that written comments be

filed on the TOU Final Evaluation and the Workgroup Report from interested persons on January 13, 2021.

The Commission will hold a legislative-style hearing to consider the TOU Final Evaluation and the Workgroup Report on January 20, 2022 at 10 am.¹ If you would like to actively participate in the hearing, please contact Molly Knoll at mollyg.knoll@maryland.gov by 12:00 Noon on Thursday, January 13, 2022. Otherwise, parties may watch the livestream of the hearing on the Commission's YouTube channel.² Please also direct any questions about the hearing to Molly Knoll.

By Direction of the Commission,

/s/ Andrew S. Johnston

Andrew S. Johnston
Executive Secretary

¹ In the Joint Utilities' Implementation Plans and the Final Workgroup Progress Report, both filed November 21, 2018, the timelines included transitioning remaining pilot customer to SOS by April 1, 2022. The Commission finds that the remaining pilot customers can continue on the TOU rate pending final consideration of the TOU results by the Commission.
